Race	Our pick	Why
Proposition 1: Reproductive Freedom and Privacy Act (Citizen Initiative) *Vote Yes or No*	✔ **No**	Vote No! If this passes, Idaho becomes a pro-choice, baby-killing state with abortion laws like California's, where abortion would be allowed up to the 8th month or later. The people pushing this proposition have no problem lying to get what they want. Current Idaho law already covers miscarriages and cases where the mother's life is at stake. This proposition adds "the health of the mother," which can be loosely read to mean any mental health reason, or simply the mother's convenience. If you think abortion is not the killing of a human being, read the scientific and logical arguments here: http://noblindfaith.com/sermon/A-logical-response-to-Abortion-5-21.pdf

Idaho Constitutional Amendment (House Joint Resolution 4): Legislature's Exclusive Authority over Marijuana, Narcotics and Psychoactive Substances *Vote Yes or No*	✔ **Yes**	Make it so that weed can't be legalized with a ballot measure. While many think the people should have power over the legislature, that's the tyranny of a democracy. In a Republic we elect representatives who we trust, who hate dishonest gain and fear God then demand they vote their consciences.
Idaho Constitutional Amendment (House Joint Resolution 6): English as Official State Language *Vote Yes or No*	✔ **Yes**	
Proposition 1: Reproductive Freedom and Privacy Act (Citizen Initiative) (repeated) *Vote Yes or No*	✔ **No**	Vote No! If this passes, Idaho becomes a pro-choice, baby-killing state with abortion laws like California's, where abortion would be allowed up to the 8th month or later. The people pushing this proposition have no problem lying to get what they want. Current Idaho law already covers miscarriages and cases where the mother's life is at stake. This proposition adds "the health of the mother," which can be loosely read to mean any mental health reason, or simply the mother's convenience. If you think abortion is not the killing of a human being, read the scientific and logical arguments here: http://noblindfaith.com/sermon/A-logical-response-to-Abortion-5-21.pdf

Magistrate judges: we rate them by a minarchist (minimal government) standard. We favor judges whose careers were spent protecting people from government power, and we oppose insider family-court lawyers and crony corporatists who grow the government's reach into families and businesses.
